

# readme

JUNQIAN ZHANG

2020/2/8

#Introduction There is only one function in this package. Running function “Stock\_simple\_return()”, you can get the plot of the open, the close and the adjusted price of the stock you enter and a simple stock return of latest date. The function runs slowly. Please wait with a bit patience.

#Installation

```
require(dseprojectS)
```

```
## Loading required package: dseprojectS
```

#Usage Data comes from yahoo, please enter the symbol of the stock. The following is an example.

```
stock_simple_return(FB)
```

```
